

007-I

Telephone meeting between Barbara Winslow, representing the Executive Committee ("EC") of the Antioch University Board of Trustees ("BOT"), and Brandy Lee Ellis, Daniel Solis, Carol Braun, Hassan Rahmanian, Dietrich Delrieu-Schulze, and Laura Fathauer, the delegation representing Antioch College.

These minutes were taken by Barbara Winslow. They were sent to and approved by the delegation.

Background: The 02/01/02 meeting of the Antioch University EC meeting discussed the proposed delegation from the College to the LA BOT meeting. The EC was concerned about students, faculty, and staff making a sacrifice in terms of money and time, when they would not be able to have a great deal of time to make presentations at the BOT meeting. The EC asked EC member Barbara Winslow to discuss this concern with the members of the delegation.

Barbara Winslow made a two-fold suggestion to the College delegation: a) since there were serious time constraints at the LA BOT meeting, and therefore not possible to give the proposed College delegation much time on the agenda, then perhaps they would consider not coming to LA. And b) regardless of the decision about LA, we would be meeting in Yellow Springs March 7/8 and would like to engage in dialogue with the Antioch College Community then. The EC would prefer to have the discussions with the College Community. Winslow also suggested that if they wished to hang up, discuss the suggestion and call her back, that would be fine.

The College delegation said that they did not need time to themselves to respond. Like the BOT members, they were willing to make the sacrifice of time and money; they had generous help from several people, with tickets and room accommodations and, given the urgency of the situation, they wanted to meet with the BOT. Winslow assured them that the EC of the BOT would still meet in YSO in March. Furthermore, the College delegation would be welcome to all open BOT meetings. The delegation should be aware that not all of its meetings are open meetings. Winslow said that the EC would discuss the possibilities of the College delegation being invited guests of certain committee meetings that may be closed to the general population. However, Winslow made it clear that the College delegation would, in all likelihood, feel that they were not accorded enough time. The delegation understood the parameters outlined by Winslow.

In my opinion, this was a hopeful, positive step forward in beginning communication between the BOT and the College Community.
