

College Council Meeting
July 21, 2020

Present: Mila, Kevin, Chris, Hannah, Rick, Angela, Elise, James, Kevin M, Kevin S, April, Noah
Visitor: Cary, Dean

Mila thanked the group for joining this special meeting. She thanked Hannah, Kevin, and Gariot for their work, and to all who have been part of this work since the beginning of the pandemic.

Plan for Reopening the Antioch Campus

It will be important to identify those items that need action or should at least be endorsed by College Council.

Mila shared the document – it is a working plan. Hannah outlined details surrounding classroom, and Kevin outlined details surround the library. Hannah shared details surrounding the kitchen. There were a few questions about beverage service which will be considered.

Mila shared the strategy for testing and scenarios for positive cases on campus.

Mila will look into ozone generators.

Kevin S. stated that Rocking Horse Community Medical Center offers free drive-through tests in Springfield Tuesday and Wednesday afternoons from 5-7pm. He was tested and the results came back in 7 days. The process is quicker if you pre-register by phone.

Rick Kraince moved to endorse this plan, with the expectation that modifications will be made in keeping with the spirit of the effort, as long as it is understood that significant changes or additional would be brought back to this body. This was seconded by Kevin Stokes. The group consensus is to endorse the plan.

The waiver of liability and hold harmless agreement was discussed.

Angela Moore moved to approve this COVID-19 waiver as an addendum to the student residential contract and Elise Peyroux seconded the motion. The Council approved this by consensus.

Respectfully submitted
Anita Brown
