Letter to the community in support of black lives at Antioch

The group agreed that a committee should be convened to add more substances into the action items promised in the letter.

Discussion of purchase requisition policy

Elise presented a policy being put forth by the finance department. It has been created to allow us to identify the requirements for the College, get proper authorizations for expenses prior to incurring the expense, and hold people accountable for spending identified in their budgets. The process is simple and clear, however, training will be provided to make sure everyone understands the process.

On a motion by Mila Cooper, and seconded by Gariot Louima, the policy was approved. Mila moved to accept – Gariot seconded. Policy approved.

Respectfully submitted,
Anita Brown
