Minutes of June 11, 2020

On a motion to approve the June 11 minutes by Angela, seconded by Gariot, the minutes were unanimously approved.

Counter proposal to the newly revised vacation policy

Angela presented the counter proposal which was created by a large number of staff. The proposal included two parts. The first contended with the accrual of vacation and time in which it could be used under the new policy. The second part related to the payout of accrued vacation which is standard, legal policy, and not able to be modified.

After considerable discussion, it was agreed upon that the proposal would be returned for revision and a new counter proposal would be welcome for reconsideration at a future College Council meeting.

It was also the consensus of the Council that managers and supervisors must encourage employees to take their well-earned vacation and that we must find a way to support their work and carry on in their absence.

College Council elections

After review and discussion of the process for elections, it was decided that a committee will be formed to manage it. An invitation to community members will be sent to solicit members for this committee.

Admission update

Gariot reported that, to date, we have 55 accepted offers of admission and 40 deposits.

COVID-19 Task Force

Rick recommended that the task force be dissolved. It was agreed upon that the task force should have a meeting in the near future to discuss another committee to continue monitoring ongoing COVID-19 activity.

Next meeting – July 9, 2020

Respectfully submitted,

Anita Brown
