DORM COUNSELOR: The Dorm Counselor must have a love for working with children, living in a communal setting and a love for the outdoors. The primary responsibilities are to take care of the campers in the dorms at night and provide some support during the day with the day-camps and evening programs; these responsibilities alternate so that there is acceptable break time during the day. The pay rate for dorm counselors is \$174 per week, plus housing. A room in one of our staff houses can be provided for your weekend use, if necessary. Meals will be provided from Monday breakfast through Friday lunch, and some weekend food will be available for staff remaining on-site over the weekends. At the end of summer evaluation, many EcoCamp dorm counselors are given the option to become Naturalist Interns in the fall. This is an excellent opportunity to see if working with children in an outdoor setting is a step in your future.
