

January 2, 2023

Hello, incoming Antiochians!

...And just like that, it's the close of 2022 and the start of a new year. We know that you're likely spending time & energy preparing yourself to join us and hope that you have most, if not all, of the information you need. Here are a few last little nuggets before **New Student Orientation begins on Thursday, January 5!**

Online Resources:

Meet & Greet: Counseling and Medical Services	"Antioch Works" Student Job Listings (subject to change)	Student Worker - Required Employment Documents
---	---	--

Academic Affairs: In preparation for your academic overview session and meeting with your advisor during Orientation, it might be helpful for you to explore our [Winter 2023 Course Offering Schedule](#) and the course descriptions in our [Course Catalog](#) or [Winter 2023 Special Course Descriptions](#) and identify courses that interest you. You can also start learning about our [2022-2023 Academic Calendar](#) and [Degree Requirements](#) if you are interested.

Move-in Instructions:

Move-in is Thursday, January 5 from 2pm-4pm in South Hall! All new students received a personal, informational **email from Residence Life on Wednesday, December 21**. *All students should also complete the "Move-In Plan Survey" included in this email as well as completing the shuttle request form if you need transportation from Columbus or Dayton airports for move-in.* As needed, you may have items shipped to campus to help with relocation.

Residential student mailing address:

Student Name
1 Morgan Place
Yellow Springs, OH
45387

Lastly...

Please also consider joining staff from across the college during a live Q & A session TOMORROW Tuesday, January, 2023 from 12pm-1pm EST. You can join the session [here](#).

We invite you to spend a few minutes this week touring the [Antioch Farm](#). This includes a virtual tour and information about our farm-to-table dining experience. Our students often volunteer, work, and complete co-op experiences on the working farm. We can't wait to show you around soon!

As you prepare to begin classes, we hope you'll enjoy exploring the [surrounding Yellow Springs](#) area. Our campus is just a hop and skip away from [Glen Helen Nature Preserve](#) and the downtown village area has a lot to offer, too. We'll help you find your way around both during orientation and are excited to have events planned for you to get out and about in our sweet, little spot in the world.

Warmly,
The New Student Orientation Planning Team
